

# AMITY GLOBAL INSTITUTE

## MODULE SYLLABUS

Course	Postgraduate Diploma in Business Administration (Entrepreneurship and Innovation)
Module Title	Leadership and ethical decision making
Module Syllabus No. (if any)	BAM600
Content	This module prepares students for strategic leadership and transformational roles in organisations. Understanding what comprises ethical decision making is crucial to today's leaders as both corporate and individual responsibility takes centre-stage in the public eye. To take effective and ethical decisions, corporate leaders must understand the systems in which they lead and how they delimit the possibilities for decision-making. The purpose of the corporation as an entity which exists to provide value to its stakeholders is the starting point for ethical considerations. This module explores who these stakeholders may be and what role the corporation plays with these various groups and in society in general in a variety of national and cultural contexts. Ethical decisions are made in the context of the personal values individuals bring to their leadership styles. This module builds on the leadership skills already developed in the core module and helps students recognise how their personal moral approaches effect and determine leadership approaches when confronted with ethical dilemmas. A key component to this module is the exploration of case studies and examples of real-world ethical dilemmas.
No. of Teaching Hours	30
Teaching Methods	Lectures, tutorials, case-studies analysis, research journals and group discussion.
Assessment Methods and Weightages	One two-hour unseen written examination (70%) One 2,000 words assignment (30%).
Skills for Maximising Learning Outcomes	Reading and Research
