Additional Reference Texts (if any)	
Additional Remarks (if any)	

No.	Learning Outcomes/Aims
1	Use written communication skills to address tasks and provide solutions to problems.
2	Select and apply appropriate computational skills, using appropriate software to analyse organisational performance and present findings.
3	Understand competing perspectives that inform decisions and articulate reasoning for own decisions.
4	Develop a broad understanding of the key concepts in financial reporting and analysis, to identify principles underlying theoretical frameworks and begin to identify their strengths and weaknesses.
5	Collect information and data from a variety of sources and articulate findings in an appropriate format. Provide informed solutions to standard problems in familiar contexts.
6	Analyse a range of information and judge the reliability of data and information using pre-defined techniques and/or criteria. Demonstrate awareness of the legal and professional framework that governs financial management practice.
7	Recognise the role of professional accounting ethics in decision making.
8	Address problems systematically and appreciate complexity
